

```
import java.util.*;
public class Main
{
    public static void main (String[] args)
    {
        System.out.println("Name : T.pravallika");
        System.out.println("SAPid : 51834742");
        int count=0;
        int rem=0 ;
        Scanner sc=new Scanner(System.in);
        System.out.println("enter a number :");
        int n= sc.nextInt();
        while(n>0)
        {
            rem=n%10;
            if(rem%2==0)
            {
                count++;
            }
            n=n/10;
        }
        System.out.println("no of even digits in a number are : "+count);
    }
}
```

Name : T.pravallika

SAPid : 51834742

enter a number :

51834723

no of even digits in a nummber are ; 2

Process finished.
